CONSTRUCTION CONSENT FORM

Private Underground Facilities and/or Hazards

Before Norvado can begin any underground construction (communication or electric service, cable installation, removal, repair or relocation), we ask the property owner to accurately locate and clearly mark all private facilities and equipment in the proposed construction path; such as sprinkler systems, sewer or water lines, underground electrical wiring, lawn lighting or underground dog fencing. Also, any power lines beyond your meter.

I agree to locate, mark and clearly identify all private facilities prior to the start of underground construction activities. I understand that failure to locate and mark all private facilities could result in damage to those facilities.

I understand that in the event of damage to facilities that I did not clearly locate and mark, Norvado is not responsible, and I agree to hold Norvado harmless for any damage to those facilities.

Email Address

***Underground construction cannot begin until this form is signed and returned to Norvado at the address listed above.**

Please call 800-250-8927 with any questions. Mail completed form to address above with attention to Engineering or emailed to engineering@norvado.com.

Customer Sketch of Private Utilities

Check all that apply:

- Septic/Drain Field
- Power Lines
- Natural Gas/Propane Lines
- Sprinkler Systems
- Underground Dog Fencing
- UG Electrical
- Well/Waterlines
- Wood Furnace Lines
- Other _____

Draw a map of your property that includes your home, unattached buildings and driveway. Include private underground utilities (see list above).

Norvado will have all public utilities identified at your location. We can provide you with a contact if you need your private underground facilities located.
